## PROFILE

---

Motivated Software Engineering undergraduate with hands-on experience in front end development using React, HTML, CSS, and JavaScript. Strong interest in building responsive, user-friendly web applications and designing intuitive UI/UX experiences, translating ideas and prototypes created in Figma into functional interfaces. Currently working on real-world projects and seeking opportunities to grow as a Front End Developer with a strong UI/UX focus.

## EDUCATION

---

SLIIT CITY UNI – Colombo, Sri Lanka || 2024 - Present

- Undergraduate – BSc (Hons) Software Engineering with University of Bedfordshire – UK

Related Course work - Web Application Development, Business English and Communication Skills, Object

Oriented Programming, Emerging Technologies and Frameworks, Operating System, Human Computer Interaction, Data Structure and Algorithms, Probability and Statistics, Database Management System

Pearson BTEC Level 5 Higher National Diploma in Software Engineering (2022 – 2024)

- Passed all modules

Jaffna Hindu College – Jaffna, Sri Lanka || 2012 - 2020

- GCE Advanced Level Examination – 2020
- GCE Ordinary Level Examination – 2017

## INDUSTRIAL EXPERIENCE

---

### Front End Developer

- Trainee at SAMUEL GNANAM IT CENTRE From Sep 2025 to Jan 2026

### Application Support Engineer

- Intern at IPOS Software Solutions for 06 months : Aug 2023 – Feb 2024

## UNIVERSITY PROJECTS

---

### Restaurant Management System

I designed and developed the front end of this project and played a key role in the overall user interface and user experience. I used AI tools wisely to create initial UI ideas and prototypes in Figma, focusing on clean layouts and smooth user flow. Based on the approved design, I developed the front end using **React, HTML, and CSS**, ensuring the application is responsive and user-friendly. This project helped me gain hands-on experience in front end architecture, component-based design, and translating prototypes into functional interfaces.

### Eventure: An Event Management Mobile and Budget Application

Designed and developed a mobile app to streamline event scheduling and participant management, focusing on user-friendly interfaces and seamless navigation.

Created a financial management app with features for expense tracking and report generation, highlighting practical problem-solving and UI design skills.

### Software Development Group Project: Srilankan AcuMarma : End-to-End Digital Store Solution

Digital platform for selling AcuMarma therapy products and Booking wellness session.

## **SKILLS**

---

- Soft Skills – Leadership, Communication Skills, Critical Thinking and Problem Solving, SelfLearning,
- Technical Skills – Html, Css , JavaScript , React , Figma (Basic) , Java , SpringBoot , Python(Basic)
- Visual Storytelling - Photography, Videography and Editing
- Design - Lightroom, Photoshop, Canva
- Languages – English, Tamil, Sinhala
- Cricketer

## **OTHER THAN ACADEMY**

---

- CEO of “Ankavan Studio” - <https://www.facebook.com/share/16XmmBt37c/>
- You Tuber - <https://youtube.com/@ankee-sathees?si=dYbuJfxZBEBWbkgl>
